

I have been listening to K-Love for over 4 years and support them as well, I want to have a station on the air that my children can listen to and if it were not on the air my children would not have a safe station to listen to. Please dont remove k-love off the air. It is important to have a great station on the air that is of God.....We need more stations like k-love. There is too much corruptive things in this world we need positive influences.
